DR. PFEIFFER PRESENTS
KIDNEY STUDY PAPER
AT FLORIDA SYMPOSIUM

MISSOULA---

Dr. E. W. Pfeiffer, University of Montana professor of zoology, presented a paper recently during the International Symposium on Urea and the Kidney at Sarasota, Fla.

Title of Dr. Pfeiffer's paper is "Ecological and Anatomical Factors Affecting the Gradient of Urea and Non-Urea Solutes in the Mammalian Kidney."

The paper is a report on recent kidney studies of hibernating mammals and different species of wild mammals. It is the outcome of research done in Dr. Pfeiffer's lab at the University this summer.

Offering technical assistance in the study were four students from Missoula. They are: Judy Blakeslee, Lowell Neudeck, Terrance Zahn and Richard Moy. Neudeck and Zahn used portions of the material for their master's degree research. Moy is studying for his master's degree. Miss Blakeslee is a pharmacy student.

Scientists at the symposium represented Germany, France, South Africa, Argentina, Brazil, England and Switzerland, in addition to the U.S.
